Subject: RE: Older slides

Are you using the MS Snipping tool? I would think that is what Amanda used and it should be on your EPA machine. And she formatted the image to have a black outline, which makes the color image crisper.

Ex. 5 Deliberative Process (DP)

Subject: FW: Older slides

Hi Andrew,

Do you know how to get better quality snapshots or screenshots of the National PFAS Data Explorer for inclusion in high level briefing slides? I can do screenshots but they aren't as good as the ones in Mike's attachment. In short, Andy G. wanted to provide senior managers with a job aide that would guide them through the various maps, tabs and views highlight where to click for certain information. Please advise.

Thanks,

Alex
